

4.1.3 Availability and adequacy of general campus facilities and overall ambience

Response:

Good infrastructure has always been the hallmark of a good Institution. Adequate infrastructure facility is a key for effective and efficient conduct of the educational programs. The growth of infrastructure thus has to keep pace with the academic developments in the institution. Our College, College of Dental Sciences and Research Centre, provides the best infrastructure that caters to the needs of Students, Faculty, and Patients. Our institution has a Medical Hospital with 100 beds to indoor patients from OPD with extended timings to attend emergencies. There is also a 24*7 casualty that is manned by highly competent professionals to manage emergencies

There are separate well ventilated, spacious and air-conditioned hostels for boys and girls in the college campus for students and provision for 24 hours water and electricity with power backup during power cut to facilitate an uninterrupted preparation for their studies. The salient features of hostel include self- contained toilet cum bath with hot water facility, study table with cabinet to store books, wardrobes and cots, purified water for drinking, uninterrupted electricity supply with generator backup and 24 hours high security with security guards. Laundry service is available for the convenience of the students. Hostel also allows recreational activities for which a large Common cum TV room is available. A special Reading Room is there to help hostilities to learn better.

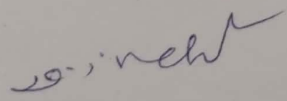

College has a canteen that is located within the campus to cater to the staff, students and patient's gastronomic needs. The college canteen offers varied menu and comfortable surroundings, becoming student's favourite hangout. It also provides good quality, hygienic well balanced food enabling students to experience a sense of "home away from home" while in campus. Water treatment plan is present in the campus where the water is treated by RO plant before supplied for drinking purpose. Toilets are provided in each department separate for students and staff with highest standard of maintenance being carried out daily.

The college has a lush green campus with ample greenery providing cool and calm environment to study. Though being situated in proximity to city, college has adequate signage to guide the patients hassle-free towards good dental treatment. The college also has ample parking for staffs, students and visitors separately with good road lanes.

We have a lush green rectangle garden in centre of college building which is well maintained by dedicated member for regular care. Different flowers and plants are being maintained and regular mowing of the lawn and grooming of the plants is done.

Campus security is provided by guards trained by our management security training academy who are always alert and instil a sense of security. They also help to regulate traffic as well as maintain general discipline. They are very kind and helpful in nature and guides patients to their respective departments.

The campus has CCTV camera facility located at strategic places that help monitor activities in the campus. Fire safety measures have been installed in all the building of the campus.
