

COLLEGE OF DENTAL SCIENCES & RESEARCH CENTRE, AHMEDABAD

Details of Major Clinical Procedure Performed in the Month of August 2026

Sr. No.	Department Name	Name of Major Clinical Procedure
1	Oral Medicine and Radiology	Tobacco Cessation Counselling
		Chairside investigations - Cytosmear
		Management of Oral Potentially Malignant Disorders with Intralesional Injection
		Laser excision -soft tissue growth
		CBCT scan and dental implant planning procedure
		Intraoral scanning and 3D printing- Implant guide
2	Prosthodontics And Crown & Bridge	Full mouth rehabilitation
		Digital smile design irt 11,12,13,21,22,23,31,32,33,41,42,43
		BPS denture
		Maxillary partially edentulous arch CU-SIL Denture
3	Periodontology	Laser Frenectomy
		Bridge flap irt 31,32,41,42
		Piezoelectric surgery irt 36

		Piezoelectric surgery irt 11,12,13
		Socket Preservation irt 27
		Guided Tissue Regeneration irt 36,37
		Endo- Perio lesion irt 37
		Nightguard
		Regenerative Procedure irt 32,34,36,42,44,46
4	Oral & Maxillofacial Surgery	Management of oro-antral fistula i.r.t 27 by excision of sinus tract, cald-well luc procedure, buccal advancement flap and antrostomy.
		Removal of Odontogenic keratocyst followed by chemical cauterization by Carnoy's solution i.r.t 35-46
		Complete sequestromy with saucerzation along with inferior alveolar nerve removal i.r.t. 33-38
		ORIF of left angle fracture
		ORIF of Lefort-I fracture via intra-oral approach
		ORIF of right parasymphysis fracture
		ORIF of left parasymphysis fracture
5	Orthodontics & Dentofacial Orthopedics	Mandible advancement with the help of Twin Block

		Surgical exposure and treatment of impacted canine
		Miniscrew assisted distalization
		Expansion using MARPE
6	Conservative Dentistry & Endodontics	Management of periapical pathosis by post retrieval followed by endodontic retreatment
		Management of periapical lesion in maxillary incisors with conventional root canal treatment and static guided endodontic management of calcified tooth 11
		Endodontic retreatment of mandibular second molar with ledge bypass and furcal perforation repair
		Conservative management of midline diastema using direct composite.
7	Pediatric & Preventive Dentistry	Early Interceptive Orthodontic Management of Maxillary Anterior Malalignment Associated with Mesiodens.
		Clinical management of early childhood caries in 5 year old male patient.
		Management of bruxism using night guard on mixed dentition
